2. Rule Set Information

MOAHR assigned rule set number: 2022-34 SP Title of proposed rule set: Tests for Breath Alcohol

3. Purpose for the proposed rules and background:

The existing rules have accompanied the current evidential breath alcohol test instruments since the purchase and adoption of those instruments into the program. The State of Michigan is purchasing new instruments with additional technological features and expanded capabilities and will need to change the existing rules to accommodate both the technological features and the new capabilities. The rules will also need to be updated to apply to the new instrument for training instrument users and technicians.

4. Summary of proposed rules:

The proposed rules are changes to existing rules that have accompanied the current evidential breath alcohol test instrument since the adoption, purchase, and installation of those instruments. The State of Michigan is purchasing new instruments with additional technology, features, and expanded capabilities and will need to amend the existing rules to accommodate both the technology and new features. The amendments to the rules also apply to training users and technicians on the operation of the new instrument.
